Oral Communication

Mechanisms of Disease I

- 1 **Factor Xa and factor IIa inhibitors differentially regulate inflammation in myocardial ischemia reperfusion injury**
I. Gadi, S. Fatima, S. Kohli, A. Elwakiel, B. Isermann, K. Shahzad, Presenter: K. Shahzad (Leipzig)

 - 2 **von Willebrand factor (vWF) significantly modifies the sedimentation profile of FVIII-containing immune complexes (FVIII-IC) based on the type of anti-FVIII antibodies**
O. Oleshko, U. Curth, A. Tiede, S. Werwitzke, Presenter: O. Oleshko (Hannover)

 - 3 **Characterization of activity and cleavage of von Willebrand disease type 2B variants**
M. A. Brehm, Y. Yildiz, K. Lehmann, T. Obser, A. Mojzisch, S. Peine, S. Schneppenheim, U. Budde, R. Schneppenheim, Presenter: M. A. Brehm (Hamburg)

 - 4 **Impact of osteopontin on platelet adhesion and activation in intraluminal thrombus formation and abdominal aortic aneurysm progression**
C. Bötdeker, M. Wagenhäuser, W. Ibing, A. Ehrenberg, H. Schelzig, M. Elvers, Presenter: C. Bötdeker (Düsseldorf)

 - 5 **Impact of platelets and red blood cells in abdominal aortic aneurysm**
K. J. Krott, M. Wagenhäuser, A. Ehrenberg, T. Feige, A. Beele, E. Schickentanz-Dey, H. Schelzig, M. Elvers, Presenter: K. J. Krott (Düsseldorf)
